Whispers from The Brighter World

Tuesday, August 4, 2015 — 10:00 a.m.

Let us continue for some more time, shall we, in order to accompany our dear Kamlesh, chosen by our hearts to assist the Mission in achieving its desired level. With the passing days, everything falls into place on the material level. Nothing is ever easy; humans often complicate situations that should be simple. What must be will be. The current situation sufficiently demonstrates this. Our choices are made for valid reasons. The major decisions result from a consensus among the Masters of Sahaj Marg and the Great Initiates who are sensitive to this exceptional path. This way will go far in its forward progress, you can be sure. That which is good for the seeker makes itself known quite naturally. We are not forcing anything; that is not our way of doing things. Only a call from the heart determines the involvement of the abhyasi.

"When the soul opens to the splendour of the sovereign Spirit, the 'angels' — as these noble souls are so rightly called here below — help humanity in its distress. They, too, act as best as possible. There is much to do in this world; let us work tirelessly towards the elevation of the spiritual level of today's distressed humanity. Sahaj Marg helps in its own manner — one that is important, you can all be sure. Through their practice, so many beautiful souls bathe in this vibration whose effects are unique. Sahaj Marg has not been given in vain to today's human beings, who have reached a pivotal point in their evolution on Earth. A very special space is opening up before them, where our purpose is to lead them to the goal. It is a goal that does not disappoint, and its achievement is fundamentally desired by all. That is how it is."
