Whispers from The Brighter World

Sunday, August 16, 2015 – 10:00 a.m.

You cannot currently gauge the full importance of these messages, and yet one day they will become a reference for the Mission. These writings will unite ardent hearts capable of understanding all their importance. In this world, it sometimes takes a long while for facts to prevail and take on their true value. The remarkable start of the new Master will foster a far-reaching and desired expansion of Sahaj Marg in the world. The current means of communication are, among other means, a precious asset for uniting the different centres of the Mission, wherever they may be on this Earth. A very specific vibration brings them together in this essential process given to today's human beings. This is about a spiritual reference for all our brothers and sisters, helping them progress towards the goal of all incarnations on this Earth.

Each person advances at his or her own pace and according to an inner call, strong to a greater or lesser degree, depending on the profound nature of the seeker. The road ahead is long; an approach like the one we offer provides considerable help to the seeker who is truly determined to achieve the ultimate goal. It takes quite some time to understand, to recognise the need for such an approach. For the human being caught in the cycle of life's manifestations, so many incarnations are necessary to reveal the very special effects of the transcendence of the Spirit in its sublime conquest of souls yearning for the Divine. Everything has its raison d'être, and Sahaj Marg has not been given in

vain to human beings of this time. It offers them a means to save precious time, under our ceaseless blessings.
