Whispers from The Brighter World

Monday, August 24, 2015 — 10:00 a.m.

Monday is a special day when we focus especially on you, the loved ones who come together in this sitting. Caught in the unsettledness of the life of our Sahaj Marg Mission, our dear Kamlesh is very busy. He is coping in the best possible manner and setting up a system that is more in line with the development of the Mission, with regard to the times to come when decisions will be required to facilitate that which needs to be done. Everything will come in due time for the expansion and harmony of this vast mystical movement that corresponds to the new era. The vibration of abhyasis is evolving with practice and with each one's personal commitment, adding to an overall aura that is decisive in their advancement. Sahaj Marg has many resources yet to be revealed in the future, in all their magnitude. This is how it is.

"May all fully realise the correctness of this approach, with our full support and endless blessings."
