Whispers from The Brighter World

Wednesday, August 26, 2015 — 10:00 a.m.

This visit will be beneficial in many respects; doesn't everything have its raison d'être! Our dear Kamlesh, like [all] the living Masters chosen by us, has had the desired potential from the beginning. Furthermore, we inspire him on a daily basis. The Masters act for good reasons, precisely, because we guide them. Times are changing, and therefore it is necessary to be adaptable and also to anticipate as much as possible the future development of this Mission. Being a visionary and fully committed, the Master must not only face up to things but also predict, as far as possible, the growing needs of the Mission. Nothing is ever simple for anyone. With regard to Sahaj Marg, we are very confident. May it guide humans, more and more, according to a call — one that is profound and beneficial in its effects.

"May all be blessed and strengthened in this great and rapidly expanding family of the heart. Sahaj Marg will surprise; its incumbent Master provides for it."
