Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, September 6, 2015 — 10:00 a.m.

We are very old acquaintances who have found each other again, in this beautiful way of Sahaj Marg — a way that provides real benefits. Many of our abhyasis are in the same situation; deep and ancient bonds unite souls according to their true eagerness to progress towards the ultimate goal. There is much to do. All the effort and commitment of our many abhyasis constitute a sacred chain whose effects will continue to reverberate in the world. After a modest beginning, Sahaj Marg is winning over hearts that are predestined to work in this direction. Its action is vast, and it can only grow stronger over time, reaching the highest level of action in the future. The hierarchy of Masters is constantly watching over all our brothers and sisters. Their action is more than discreet, and yet you can all be sure that what is being achieved here is not ordinary. It is not easy to assess one's own path and true personality. The achievements of past lives are a true asset for many of our brothers and sisters. Whatever the case, everything is possible; we are working towards it with eagerness, and our blessings are unceasing."
