Whispers from The Brighter World

Tuesday, September 8, 2015 — 10:00 a.m.

Every day constitutes a step in this unprecedented mystical advancement whose action is aimed at what is essential. The loyalty of the beings who serve this Mission is important. Everything depends on the spiritual work of the living Masters and those who preceded them — by whose grace solid foundations were established, making this Mission what it is today. The future will give it its full scope and a power that is difficult to assess today. The human being of the future will have an even greater need for a simple method that can be easily accessed in order to connect to reality — a reality from which humans are moving further and further away, as they are so very engrossed in a technology that devastates their subtle bodies. This fact is alarming and not perceived by the medicine of today, which is largely focused on the physical body. Sahaj Marg helps our abhyasis without their knowledge, one might say. May the practice act more and more upon a large number and thus meet our dearest wishes."
