Whispers from The Brighter World

Wednesday, September 23, 2015 — 10:00 a.m.

All these beautiful testimonies about the messages, coming from America or other parts of the world — are they not convincing! Their impact goes far beyond human perception. The work done by these abhyasis is not insignificant. Each of them perceives the messages in his or her own manner. To thereby go beyond a simple reading for a personal deepening brings about good results. They are not the only ones to do so, which is a good thing and we can only appreciate it. Nowadays life is so superficial. Happy are those who manage to overcome the permanent illusion in which the world currently finds itself; they inwardly search out and deepen the potential they hold through this extraordinary spiritual journey. They have at their disposal real means of progressing and truly advancing in this way of the heart in which nothing is trivial despite its appearance of great simplicity. Here, it is about the heart — is it not, in every respect, the essential element of life! To all, we wish the best and a progress that is in line with their aspirations."
