Whispers from The Brighter World

Friday, September 25, 2015 – 10:00 a.m.

Sahaj Marg is henceforth well established in the world; its action is unfolding slowly to better reach out to hearts asking for a spiritual way that is simple but productive of the best results. We cannot make great revelations here, as some people would like us to do. Our approach aims to help the greatest number effectively – much more than it would seem – and to enable unprecedented progress in this area, in the easiest and most accessible way for all. Here, the intellect does not have priority. Rest assured, our objective exceeds such considerations; the action of Sahaj Marg goes far beyond appearances on the material plane.

We want the best for all, and the action of this divine principle really touches the greatest number. Self-assessment of the results obtained in such a practice is not easy, you can be sure. All that is done here has its raison d'être. The future will position Sahaj Marg in the world even more broadly; many beings will understand its effectiveness as well as its long-term results, and more. Rest assured that everything is counted and inscribed on the ledgers of time, in accordance with the aspirations of each one. This approach is not fruitless, far from it. One day the divine purpose will be achieved, and then the reality of all things will appear to all our aspirants who are steadfast and faithful to the principles of Sahaj Marg.

Special blessings.

Babuji
