Whispers from The Brighter World

Saturday, September 26, 2015 – 10:00 a.m.

These birth anniversaries are landmark days in our Mission; they are very important in more ways than one. Being especially blessed by higher authorities, they generate the best effects in all our abhyasis, who receive according to their involvement, their personal inner call.

As for our dearest son Kamlesh, he is carried and very specially blessed during these days of grace when all our brothers and sisters together with the whole hierarchy are, and will be, at his side with much attention and love. Those moments are unique, you can be sure of it. They mark the stages in the long journey of this way of the heart, which is involved much more than it may seem in an extraordinary action, preparing a future that will return human beings to spiritual reality after many torments and much suffering. This future is not for tomorrow, but it will come.

To follow a path like this one is wise and leads committed beings towards an unprecedented growth and progress; we are actively working towards it. Our dearest Kamlesh is preparing for the first birth anniversary [in his honour] following his appointment. May he be oh so blessed. We carry him with much love in this role – a very demanding one, yet so productive of the best, under our ceaseless blessings.
