Whispers from The Brighter World

Sunday, October 4, 2015 — 10:00 a.m.

Let yourself be carried on the wings of love, the love that enables this very special work in which we can express ourselves with complete confidence every day. Here our comments are not used or distorted for the wrong reasons. Only such a relationship could have enabled this extraordinary story, which will remain the hallmark of the way of Sahaj Marg.

"The advent of the high place of Hyderabad will be the consecration of it. We expect a great deal from this achievement; it is a place charged in more than one way, such as you cannot imagine. The future of the Mission is there, and our dear Kamlesh will do what is necessary to give it the full magnitude and splendour that we hope for. It will remain in a certain way his signature, since he will be able to lend it a scope that will be exceptional in every way. We are already rejoicing in the realisation of this project, which will become the jewel of our Mission.

"May all our brothers and sisters become aware of it and look forward to that future ashram, a very special one in many ways; it will be the final hallmark of the establishment of Sahaj Marg here below. It will become a point of reference, withstanding many upheavals that will alter the world from what it is today. May the greatest number become aware of this and take advantage of the opportunities thus offered by divine grace. To all, the best."
