Whispers from The Brighter World

Friday, October 23, 2015 – 10:00 a.m.

Our thoughts and wishes concerning this Mission are expressed here. We accompany it in our own manner, without ever forgetting it in all its actions. It is unfolding and will do so more and more, under the impetus of the current Master; he is working for its expansion by greatly facilitating the means of approach and the practice as a whole. It nevertheless remains very effective and active in its results for all. Times are changing, and human beings are gradually adapting to a planned evolution that, for many reasons, will mark this century. True knowledge will increasingly open up to the multitudes. Humanity is advancing slowly, but its reserves are immense, and human beings are bound to open up to discovery and make real progress. Here, we are helping our followers in our own way, and the results will only grow and become obvious over time.

Special blessings.

Babuji
