Whispers from The Brighter World

Friday, November 13, 2015 – 10:00 a.m.

These contacts are an integral part of your life, and they are also necessary for us. They have existed for so many years. They will be remembered and are important to many of our brothers and sisters. They are a precious asset for all of us who are united in heart with all our abhyasis, brought together under the guidance of the chosen spiritual Master, who is carried by our care on this difficult journey. Nothing is ever easy here below; incessant heaviness delays the evolution of each incarnate being subjected to these laws that are indispensable in the current state of knowledge, and in the very principle of life.

Incarnations repeat themselves, facilitating a planned evolution. These principles are ignored by humans. A day will come when knowledge will be revealed to the greatest number of people, who will have reached a level sufficient to integrate it in its purest form. It will still take time to achieve a vibratory level capable of generating a perfect society, or at least one that is in keeping with divine principles. To some extent these principles are respected, but much remains to be done to reach the goal. There lies the main focus of our concerted actions with those who have been chosen and who are fully committed to this evolutionary process, acting ceaselessly in this direction for the good

of all humanity, since all living kingdoms are subject to it without fail. As it is said, one day the divine purpose will be achieved.

Endless blessings to all.

Babuji
