Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Wednesday, November 25, 2015 – 10:00 a.m.

Dive into this ocean of love where your soul delights; for this, surrender is indispensable. Your faith in us carries you and works wonders. You receive these messages with the heart and not the mind, and this is what makes the difference. They will remain one of a kind, we emphasise it once again. They will leave their mark on these times and in the future will become one of the references in this Sahaj Marg path. Repetition is necessary in this area as elsewhere; it is the driving force of life. The hierarchy of Masters is following the expansion of this way with utmost attention. Its difficulties on the material plane do not leave us unmoved. We are doing our best to address them, particularly in some situations.

We are thinking of Hyderabad, this future high place of Sahaj Marg, which will become in its own way the pearl of the Mission. It is important to focus on this edifice that is close to our hearts. The future will highlight the many extraordinary aspects that characterise it. What must be will be; nothing is ever easy here below. So it is with humanity, and this is not about to change. Everything happens slowly here below – such are the laws in the current era. The deep motivation of abhyasis does the rest; persevering and keeping faith in spite of everything is a valuable asset. The future era

will bring another dimension to what characterises life on this Earth today. To the divine powers, nothing is impossible.

Blessings to all.

Babuji
