Whispers from The Brighter World

Sunday, November 29, 2015 — 10:00 a.m.

This rendezvous of the heart is very special today, when many of our brothers and sisters are participating in this ritual. May love carry them all with fervour and inspire our dear Kamlesh in his heavy but very gratifying work within our Mission. The Mission is taking on a scope that delights us, and this is just a beginning; solid foundations are laid now, and its expansion will continue to grow. Over time, some changes will be required, but everything will come in due course. The divine intentions cannot be circumvented; here we are striving to ensure that they are complied with and that everything is for the better on the material and spiritual planes where harmony is necessary. Power struggles and pettiness are not appreciated at all. May the growth of this way take place in a climate of harmony and respect for the laws of this world and ours. A perfect world does not exist, yet we are working towards it; why not envision it? Positive thinking is not futile. It helps achieve the desired action. What will this world become a century from now? This should be considered now, and the needful should be done today to generate the best at the right time. This special meditation creates a positive aura over the entire Mission; such a concerted action can only yield good results.

"To all, our very special blessings, especially to our dear Kamlesh, the chosen one of our united hearts."
