Friday, August 20, 1999 - 10:00 a.m.

Link up well with the Augerans seminar. Your Master does not forget you. Be there in spirit as often as possible. My son does his work from wherever he may be. It is not by a whim on his part that he is not physically present at this seminar. That is how it has to be. Abhyasis must grow in wisdom and the understanding of spiritual life. They should on no account linger on the visible and palpable aspects —which are human characteristics. Confidence and surrender are the two strong points they must cultivate. That is enough for today. Remain calm and detached as much as possible. Be patient, my child, we love you."
