Whispers from The Brighter World

Sunday, December 27, 2015 – 10:00 a.m.

You offer your heart above all, and you receive our remarks, carried by this unfailing love that gives a special vibration to these writings. Many of our brothers and sisters receive them as such, with the personal dispositions that are theirs. This allows for the diffusion of an energy that is very subtle and redeeming in its action, according to each one's call. The materialisation of the Spirit that animates these words is found within these pages, which are written day after day and will remain a clear testimony for our action in this world. This world is disconcerting in many respects, but it allows us here to express ourselves in a lasting way. These messages will have to be preserved; they are unique among their kind, carried by a story, an extraordinary love, as has always existed in this world in such circumstances.

An ardent call of the soul is always heard; we answer it in our own manner by acting for the good of the one concerned and the good of our Mission, whose egregore is growing and will soon touch the summit of the heavens – there, where we are already developing the future of this Mission. Like the greatest spiritual movements, it began in a small way and will one day reach the apotheosis, you can be sure. The united Masters, as well as the faithful servants of Sahaj Marg who have rejoined us here, are more motivated than ever. Faith and courage to all, under our blessings.
