Whispers from The Brighter World

Monday, December 28, 2015 — 10:00 a.m.

A year is coming to an end. It has brought some changes to the Mission. These changes have been inspired by the hierarchy of Masters who support and guide the Mission every day. Our dear Kamlesh has this rare ability of adapting to new rules that are necessary for the development of the Mission over time and for its expansion as planned by us. Doesn't everything have its raison d'être — so far each of the Masters has contributed what was expected, and such will be the case according to the needs of the times. Time clarifies situations and suggests a reality that one should adapt to. The love of the Masters haloes this way of the heart which is growing and becoming established as needed.

"What will this coming year be? The divine plans are revealed in due course. An enlightened Master proceeds under this guidance. He was chosen to meet the wishes of the Masters of the past, who are always attentive to this unparalleled way and to the successor. He is carried with love; a spiritual Master sometimes feels very much alone among his fellow beings, but also in the face of the power that guides him and imposes its laws upon him. Such a mission here below is not ordinary. It results from a distant past and from incarnations that required an exceptional potential. Sahaj Marg too is following its path, and its action is not a minor one, you can be sure. Otherwise, why would we use so many means in responding to the needs of this Mission that is so special in terms of its effects and satisfactory results.

"May all be further motivated and grow in proportion to their call. May all be blessed."
