Whispers from The Brighter World

Wednesday, December 30, 2015 – 10:00 a.m.

This visit is very beneficial for all – we are happy. This dear, great son Kamlesh meets all our expectations. However, he should spare himself. He is very precious for the whole Mission and for those of us who carry him, in our own manner, with great Love. The current means of communication foster the exchanges necessary to properly maintain unity among all our brothers and sisters around the world. Thus, no one feels isolated, as we are seeing to a global transmission that is productive for all. The Sahaj Marg Mission is a whole, a force whose importance our abhyasis do not truly realise. May they all involve themselves with confidence and determination on this uncommon way – one in which the heart, this essential human organ, also holds many powers, including that of a transient identity, but also going well beyond.

Meditating on the heart as recommended by Sahaj Marg is a sure way to progress. The action of the spiritual Master is very potent and allows a very large number of human beings to go beyond the current stage.

Our action, as such, is desired by the higher powers that watch over the progress of this humanity, weighed down by incessant trials and sufferings of all kinds. Spiritual

growth opens a fairer path that generates many benefits. May they fully realise this and be further committed under our blessings.

Babuji
