Whispers from The Brighter World

Thursday, December 31, 2015 — 10:00 a.m.

Benefiting from a living Master is a valuable asset. He achieves in this world more than we can do ourselves, even though we hold broad powers. There are differing planes of consciousness, allowing very specific actions that complement each other to build a definitive and solid structure for this Mission. Everything is taking place according to the wishes of the united Masters. We are preparing for this Mission that which will definitely position it at a very satisfactory level. Without undue constraints and unnecessary speech, the practice is a response to current life. What is being done is justified as it truly helps our brothers and sisters who are committed to this approach. Power has no place in this system; only effective action meets our expectations. The living Master is endowed with means that can meet the diverse requirements of such a movement whose effects are unique; you can be sure of this.

"May all our brothers and sisters be truly motivated and benefit from the opportunity offered to them to follow an extraordinary path. Our dear Parthasarathi, who is among us here, marvels at the evolution on the material level of this way for which he has given so much.

"We all wish, according to your culture in this period of season's greetings, the best ever for the entire Mission and for each of our brothers and sisters, whom we follow with love. That is how it is."
