Whispers from The Brighter World

Friday, January 1, 2016 — 10:00 a.m.

These messages will leave an imprint on hearts, one that is much more important and exceptional than it appears. The current Master, prepared by us with vigilance and blessed with extraordinary potential, will give the Mission its final foundation. He will put into place that which will be decisive for the future of this unparalleled way. In this, the heart is of fundamental importance; this aspect of things is not yet well understood in all its subtlety. Spirituality is not as clearly defined as would be desired in these current times — times when so much effort is required to open this space of spirituality to the multitude of hearts that are willing to follow a real process, thus overcoming a world that is distressed in many respects. We are appalled by this fact, but we are limited at present in terms of an action that would be convincing to the vast majority. A day will come when the need for real action on this level will become obvious to all. The future will lead to a stage of evolution that can hardly be conceived today. How many people care about this aspect of their lives? General awareness will be necessary to achieve the desired objective. The divine plans are always fulfilled — this has been obvious since the dawn of time. So much effort and incessant struggle are necessary to reach the goal. Its achievement is the ideal; it is total happiness as envisioned by humans. Our action works in this direction. That is how it is."
