Whispers from The Brighter World

Monday, January 4, 2016 — 10:00 a.m.

Times are changing, and everything is evolving accordingly. A spiritual way such as ours can only adapt and grow at its own pace. Minds are opening up to a reality that is beyond them. They aspire to go increasingly deeper into the divine laws that govern for the general good all that is living and coming to life here below. Following a path like this opens up new horizons and strengthens one's faith and the action of the Masters who dedicate themselves to this way of the heart whose action is unprecedented. Surrender and perseverance provide an asset that cannot be assessed in human terms but that offers unparalleled opportunities giving everyone cause to rejoice. Each abhyasi advances at his or her own pace; what matters is the commitment of the heart and each person's determination to conquer the sacred space within, one that opens the doors onto this indefinable yet thrilling infinity.

"We wish the best for everyone, while trying to adapt to current needs, to the expectations of our brothers and sisters who are constantly evolving. This world is in perpetual motion. Thus it is characterised by a multitude of cultures, religions and spiritual aspirations having various shades of meaning but eventually leading all beings to the same level of evolution, if the commitment is sincere and steadfastly maintained. In all of them, effort is needed, and here it leads to a reality that is beyond the hopes of each of our abhyasis; perseverance achieves the best. All are helped according to their personal aspirations, and you can be sure that they are constantly progressing with our continued support."
