Whispers from The Brighter World

Tuesday, January 5, 2016 — 10:00 a.m.

The heart is a sacred island, the seat of human identity in all its subtlety. This reality is still unrecognised; it is beyond the scope of materiality. Our action lies there and remains privileged, in a sense, since it is very rarely touched upon. The evolution of a being happens in its core; many mysteries remain unknown and are not understood — all this is for good reason. That time will come, and it will exactly meet the demands of science, since this is a determining factor in the current era. Sahaj Marg will also be revealed in all its reality when the time comes; it will then take on its full meaning and importance in the eyes of human beings who are properly and rightfully enlightened.

"The era of knowledge will come. Spirituality will then hold a choice place, since it will highlight a reality that has remained hidden for too long. Let us prepare that time in our own manner, by opening minds to a truth that is still concealed. The heart, this special organ, holds many surprises for us. One day they will be revealed, and they will transform the world in their own way. Sahaj Marg is centred on this reality and alludes to it, but in the current era it cannot go further into its many capabilities — this is for good reason. When that time comes, Sahaj Marg will reach its peak and be recognised in all its subtlety of action. Let us leave it there; we do not want to further intrigue our brothers and sisters. Each day offers a step forward in that direction.

"To all, the best. Each one is guided according to his or her deep aspirations. That is how it is."
