Whispers from The Brighter World

Friday, January 8, 2016 – 10:00 a.m.

Relax – forget this mad world and see only the beautiful, the good in everything. These words bring peace and harmony into your heart, as you know. Such is our ritual. Going beyond the world of matter and taking refuge in this sacred space opens new horizons onto Infinity. See how all is beautiful here; divine Splendour enchants the soul, whose only aspiration is to merge with the Ultimate. Such is the objective of the work proposed in our way, which allows one to achieve a satisfactory level and even more, depending on the commitment of the abhyasi. Real progress is achieved, and that is our joy. There is so much to do on this Earth. For our part, the expansion of Sahaj Marg is continuing, and one day it will achieve what has long been planned, that is to say, the best. Nothing is trivial in an approach such as this; its apparent simplicity in no way precludes the efficacy of the system. May these comments reassure all our abhyasis. The divine laws operate in their own manner in order to lead this world to a level sufficient for a better integration into a general system that is beyond human comprehension, yet one that will be decisive for centuries to come. Many phenomena will occur, leading human beings to a higher consciousness.

The approach proposed in this system works in this direction; this may not be obvious, yet it is up to each one to be truly committed and to trust. This world of illusion is not easy to grasp in all its subtlety.

In many situations appearances are misleading. The heart, in its sacred essence, manages to protect itself from negativity, hence our continuous action in this domain. Perseverance and confidence to all, to achieve the best.
