Whispers from The Brighter World

Saturday, January 16, 2016 – 10:00 a.m.

Our dear Kamlesh has perfectly settled into his role as a spiritual Master. He is working with ease and competence in all aspects. We are grateful to him for that. This spiritual way is so dear to us; it meets our expectations with respect to the results obtained and the good it will continue to provide in the future. It will significantly expand worldwide and will bring many benefits in an environment that is so troubled and difficult to bear on many levels.

Interiorisation, and particularly meditation on the heart, allows one to divest oneself of unnecessary aspects and to rebalance the subtle vibrations of the whole being. All these pervading disturbances disrupt the different bodies. Meditation as practised in Sahaj Marg is soothing in more respects than one.

The complexity of the human body is not yet comprehended as it should be. The time for that will come. Everything is so slow on Earth; we cannot change anything about this. Only time will allow the affirmation of truths not yet understood today. What matters for our brothers and sisters is to progress according to their personal inclinations and expectations in matters of spirituality. That our abhyasis are aware of the need to progress in this area testifies to a real aspiration for the Divine. Advancing, going further into this unique discovery of the Self, is the most beautiful achievement of a human being in this incarnation. This one prepares for those that follow and for what

they will bring to this long cycle of personal evolution. Sahaj Marg provides for it in accordance with our most ardent wishes.

Blessings to all.
