Whispers from The Brighter World

Tuesday, January 19, 2016 – 10:00 a.m.

The various Chosen Masters in the service of this Mission have brought to it what was needed at the time. Each of them has left his mark on it in order to make it what it is today, when our dear successor Kamlesh is fostering an important and, one might say, unprecedented expansion. All these prospects are truly cause for rejoicing. We follow his actions with interest, inspiring him when necessary.

He was not chosen in vain. The monitoring of this way of the heart is important. This path can help a great deal in the current environment – one that is disturbing for human beings. It allows abhyasis to go towards the Infinite and new horizons, which should not unsettle them in their current practice. Sahaj Marg will surely not stagnate in its basic principles. It will be able to adapt and meet the expectations of our aspirants who truly seek the Divine. This aspect should be given priority. The ultimate goal of a life, with its many repeated incarnations, is to perfect that which already exists in order to reach a subtler level of evolution in line with the new era.

Standing still does not help one progress. An ardent heart aspires to rise, to be united more and more with the Divine, in the manner we propose. It is effective. The brothers and sisters who were committed on Earth to this system, and who have come to join us, would like to testify to this, and they do so in their own manner, you can be sure. Their spirits are very active, for both their own good and that of the whole Mission.

May all be blessed and strengthened accordingly.
