Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Friday, February 5, 2016 – 10:00 a.m.

Transcend this current life which limits you to the basics, and come rejuvenate yourself close to us – we who are so attentive to our dear scribe. Each one has their role in our Mission, yours has long been planned, and all is well this way. Our very dear, great son Kamlesh sometimes feels quite alone at the helm of this Sahaj Marg Mission. The most important roles are therefore assigned in advance, for good reason; we too experienced these situations. With regard to the current Master, Chosen by us, we are attentive to him every day and we inspire him as best as possible. Such a position is not always easy to assume, but it is highly productive of results and quite unusual overall. Each one of us in our own manner has marked this way of the heart. It still has a long way to go, to take its place in this human world in a magnificent and definitive manner. It is already well established; Hyderabad will be its most sought-after high place and the bearer of an extraordinary energy. We have been applying ourselves to it for some time so that this path may soon reach the pinnacle of its power of action, giving us much cause for rejoicing.

The birthday celebration will soon bring together a large number of abhyasis; not everyone will be able to come, but none will be forgotten, because everywhere around

the world it will be taking place in its own way. May the best be achieved for all, by the power of our love. Such are our strongest wishes.

Babuji
