Whispers from The Brighter World

Tuesday, February 16, 2016 — 10:00 a.m.

Life is created by the movement of matter, which is inspired by the higher power whose manifestation is eternal. So many phenomena are still beyond human knowledge; this world of perpetual illusion does not foster spectacular advancement. A day will come, after some major upheavals, when reality will at last unfold before the eyes of human beings. They will be stunned to truly discover it. Then, Sahaj Marg will take on great importance. It will really display its effectiveness at subtle levels which human beings cannot yet access, contrary to what the best-informed people tend to believe. Life on Earth is a long quest for truth, a truth which has been sought after for so long. Spirituality, as we offer it, opens doors, thus enlightening the seeker to some extent and according to his or her yearning to discover it. Humankind has so much to do in order to reach a satisfactory level. It has already come a long way, but a large step is yet to be made before the human being can gain access to reality. The practice of Sahaj Marg provides seekers with highly satisfactory aspects in this matter, though they do not truly realise it. This world of illusions so distorts the initial truth that it remains, in the current state, ignored by human beings. Substantial changes will occur one day. They will remove barriers, making true knowledge more accessible to human beings. Make of that what you will, our abhyasis can comprehend these comments. May they take note of them.

"Blessings to all."
