Revered Babuji Maharaj

Whispers from The Brighter World

Wednesday, February 17, 2016 — 10:00 a.m.

The alliance of united Masters remains faithful to the Sahaj Marg Mission, and this is not about to change. This spiritual path, which is quite special, was long foreseen; it will leave its mark on this time and remain a very strong point of reference in the future. Various upheavals will occur and only strengthen the Mission in its existing organisational structures, which are being well adjusted and optimised by the current Master. We support him in his action and projects; he is forging ahead, and this is remarkable.

"Movement creates life, and vice versa. The expansion of this way of the heart delights us, meeting our expectations. A lack of action is never good, as it gradually leads to decline. In the future, Sahaj Marg will have a significant impact, meeting the needs of the time. It will bring the note that is necessary to the song of the heart which is so important for the hearts of our brothers and sisters yearning for the Divine. The Mission is growing. Its egregore produces an unparalleled strength, one that cannot truly be assessed by our abhyasis. But they should rest assured: their commitment brings about the best. Sincerity and regular practice magnificently carry the love that inspires the Masters, from those of the past to the current Master who is the custodian of our energies and of the Mission's many projects. All in good time — everything happens at the appointed moment. We all carry this Mission with much love, you can be sure.

"This is how it is."
