Whispers from The Brighter World

Sunday, February 21, 2016 – 10:00 a.m.

He whom you call 'Babuji' is there, attentive to your dear person. Why would we not say it this way? All these years of fervour, of intense communion, have created a unique space of love and peace that, over time, will leave a true reference within our Mission. All these words are not in vain; they have their purpose, and they will be greatly appreciated in the future when the world has returned to greater wisdom and spiritual investment.

These writings will not be forgotten; they will constitute a precious asset for Sahaj Marg, a real benefit. Their vibration will be perceived and appreciated at its true value. Human beings are advancing very slowly towards an evolution that has been planned for a long time. It will free the world from taboos, from an ignorance so long maintained for the wrong reasons. The essential thing is to lay solid foundations in compliance with laws that do not depart from the divine will. Such laws are vital for the benefit of all life on Earth. Sahaj Marg is advancing in the direction of the good, in order to build a better world motivated by the best of intentions. To be fully engaged in action, in the life of a material world, is good; to develop in parallel the spiritual space needed for the call of the soul constitutes true wisdom.

May all our brothers and sisters become aware of this important factor – the progression of the subtle being towards the best that is possible, with the help of our ceaseless action.
