Whispers from The Brighter World

Sunday, February 28, 2016 – 10:00 a.m.

Such love could only be expressed here. It will help more than one heart in its mystical progress. Would we give these messages merely to fill some pages?

They are bearers of a very special energy, whose effects operate to a certain extent according to the attention given to them. We are attentive to the needs of each person; many stages are to be cleared before reaching the goal. Real work is being done thanks to this particular method given to today's human beings. In the future, humanity will have to take an important step in order to adjust to the unprecedented changes that will occur on this planet Earth, adapting human beings to a new orientation.

Spiritual advancement refines the sensitive points that are decisive in human evolution. Sahaj Marg is part of this process, and it will operate more and more in this direction, which is recognised for its redeeming effects. Humanity cannot stagnate forever in this unprecedented negativity. Only big upheavals will be able to reverse this trend that is so harmful to all that lives here below. Let our brothers and sisters rest assured, their current vibrations will become more and more refined, in keeping with prevailing necessities. All are carried according to their call. Nothing is forced, but this unprecedented action saves them valuable time.

Blessings to all.
