Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Friday, April 1, 2016 – 10:00 a.m.

Sahaj Marg wins hearts, slowly but surely. It is taking its place over time and space in countries where one could not have imagined it. Fervent souls see themselves in it; its simplicity does indeed conceal a real effectiveness. Our faithful abhyasis have been able to convince themselves of its importance and fully adhere to its discreet and effective action.

India has witnessed the birth of Great Beings – spiritual Masters so highly inspired, who have, for a very long period of time, influenced many people in this world. Major changes will occur in the future; as for this country, it will live on, continuing its course while helping many brothers and sisters. This planet has known substantial upheavals in a distant past, resulting in its present configuration. In the future, it will change in many respects, for an adaptation more conducive to its evolution.

Today's human being foreshadows the humans of tomorrow. A significant vibratory change will bring about transformations that can hardly be imagined today. Sahaj Marg will pursue its course. Given to humans in the present era, it symbolises open-mindedness and its real efficacy. Well established here below by Masters who have each had a very special mission, Sahaj Marg will unfurl its power of action in this world, and it will do so for a very long time, you can be sure.

It is up to all of you to work in full awareness of these major assets, capable of leaving a definitive mark on this incarnation and the rest of your journey, under our blessings.
