Whispers from The Brighter World

Sunday, April 3, 2016 – 10:00 a.m.

Open your heart and let it live these unique moments in complete serenity. This ritual is special in our Mission, as it allows our voice to be expressed for the good of all our abhyasis. This fact gives rise to a special energy felt by beings who are sensitive and open to this vibration. Doesn't everything have its raison d'être. These messages are more important than they may seem – the future will confirm these words. Our chosen scribe has fulfilled her mission with much love and surrender, a decisive fact in this matter. We repeat it once more, channelling capabilities alone would not suffice here, where divine energy makes this feat possible.

Sahaj Marg fosters a beautiful spiritual progress. Its results are very positive; we can measure their effects after these many years of action in this world. May our faithful abhyasis be thanked, and may the functionaries – some of whom have been engaged for a very long time – be strengthened and, most especially, blessed. This entire Mission creates a very special aura that is oh so appreciable in the face of this world that is in distress in many respects. Good and bad must coexist on this Earth – a fact that cannot restrain real spiritual progress that has long been planned in this world. Everything will fall into place at the opportune moment. A humanity stronger and more

beautiful will emerge from the current chaos in due course. We are all working towards this – the Masters of the past and present, united for the good of all of you.
