Whispers from The Brighter World

Thursday, April 7, 2016 — 10:00 a.m.

True spirituality is a privileged space where souls in search of the Divine meet and progress. It takes time and effort to achieve the goal and especially to become fully aware of this presence in oneself that wants only to blossom. The method of Sahaj Marg manages to operate on sensitive points that are most often ignored because they are usually forgotten in such an approach. The current era will increasingly promote a very refined advancement of the divine principles in their multiple manifestations. Teachings that have remained secret since ancient times will emerge in human consciousness, opening to humanity a real and true knowledge, one that promotes the elevation of the soul. Who genuinely cares today? Future times will offer other possibilities. After very great turbulences, this world will, to some extent, access true knowledge — one which opens the secret doors of a privileged space where refined Great Beings are preparing a future more conducive to the expansion of the soul, to its beauty, in a context very different from what it is today. Everything is changing and will change completely in times to come, out of necessity. The divine plans will provide for it; fine and great achievements will occur, changing the face of the world. Blessed are the pure in heart, for they will see the light; to the higher powers, nothing is impossible.

This is how it is.
