Whispers from The Brighter World

Monday, April 11, 2016 – 10:00 a.m.

Let yourself be carried by our voices; they celebrate love, the love that enchants you every day, filling your heart with a very specific vibration. This most special relationship has generated thousands of messages; they will leave our Mission with a very important legacy whose full value will one day be revealed. Nothing is done without reason in such a domain. The Sahaj Marg Mission is a whole, a force whose effects manifest over time – a time of taking stock, and over the course of days one discovers the benefits generated by such an approach.

The aura of our brothers and sisters becomes brighter over the years. We are able to assess this, and the whole Hierarchy rejoices in it, you can be sure. Seeing souls rise and aspire to the Divine, to the promising journey of the being towards his or her highest destiny, we note the results and are thus encouraged to continue on a larger scale. Here, an intellectual approach is not enough; a vibratory space is created, promoting the expansion of the soul.

The main goal lies there: to help our brothers and sisters on this extraordinary journey, accompanied by results that are very positive and necessary for the evolution of each one. The objective, the final goal, is always the same, and the very satisfactory results can only reinforce our action.

The best to all our brothers and sisters.

Babuji
