Whispers from The Brighter World

Friday, April 15, 2016 – 10:00 a.m.

These writings are the expression of an extraordinary love. Their number and vibratory intensity distinguish them. They are meant to touch the hearts of our brothers and sisters and accompany them throughout a spiritual journey suited to the new era. The present is being lived, the future is being prepared; this preparation is accomplished here for the good of the greatest number. The Sahaj Marg Mission operates in its own manner, it is marking its place in time, and it will remain one of the decisive elements in the evolution of beings. Our vision of the future World allows for this reflection. Many things will change, aspiration for the Divine will greatly increase, fostering an unprecedented expansion of human consciousness. A total transformation will be necessary for humanity to reach the desired level.

Many souls aspire to the Divine without being able to act appropriately. The evolution of beings goes through various stages, some more favourable than others, in a process of transformation. A balance is nonetheless created, leading to positive effects in line with divine plans. The era of the future will be completely different, it is being prepared. Sahaj Marg will hold a special place in that future, so much will its action unfold in hearts, for the good of all. Thus what must be realised, comes to be; the divine will manifests according to its own laws.

Blessings to all.
