Whispers from The Brighter World

Saturday, April 23, 2016 — 10:00 a.m.

Step by step, the Sahaj Marg Mission is advancing, carried by the love of Masters who are attentive to acting upon hearts receptive to the benefits of such action. Time does its work. It provides the human world with opportunities to advance towards knowledge that is necessary for realisation and the evolution of all. We can happily measure its effects; from here, our vision of all human beings is very broad. Sahaj Marg creates a special vibratory space and is active in more than one way. This is not easy to define, but sensitive beings perceive and take full advantage of its benefits. Souls that rejoin us here unite in order to perfect what they had started on Earth, and they strengthen it beyond their expectations.

Nothing is lost in such an approach; time devoted to deepening it further and further allows one to develop a very refined sensitivity. This generates the best in a process that is unparalleled in the mazes of faith. Such sensitivity is capable of influencing, more than decisively, this extraordinary spiritual journey, you can be sure. More and more beautiful souls are advancing in this special way, one that will leave its mark on present and future times in the most beautiful manner. Such are the divine choices: they provide in a timely manner that which is suitable for a significant broadening of consciousness.

To all, the best ever.
