Whispers from The Brighter World

Sunday, April 24, 2016 — 10:00 a.m.

All the grossness of the world cannot disturb a loving heart that is so surrendered to ours in such moments of unique communion. These writings will go down in history. They deserve special attention, and our dear successors are seeing to it. The Mission is being built little by little, and one day it will reach its apogee, helping an increasing number of brothers and sisters who hunger for the Divine. The reality of this concept will become clearer and clearer — that of a redeeming energy capable of helping the multitude of people who need a true method. Such a method can lift them up to that same energy when they are receptive to its ceaseless action. Opening up to the splendour of the Spirit is the most precious asset there is — one that cannot be lost under any circumstance. It is a sure asset which we are taking great care of for the sake of all our faithful abhyasis. What has been gained is immutable for them and will remain so; this is not insignificant. It is passed on from one lifetime to the next to meet the needs of each life. Simply, without any great fanfare or rituals, real work takes place and serves the aspirant by helping him or her to progress satisfactorily, thus fulfilling the subtle being with utmost discretion. Deep in the silence of the heart, the true personality of the complex human being blossoms; its effects enable the best to happen and leads the aspirant to those shores whose beauty cannot be imagined.

May all realise the importance of their course of action; they will not regret it. Special blessings.
