Whispers from The Brighter World

Monday, April 25, 2016 – 10:00 a.m.

As long as it is possible to do this, why would we stop. Many of our brothers and sisters appreciate these messages; they are a blessing for the Sahaj Marg Mission. This occurrence is not ordinary. It demonstrates the uniqueness of this spiritual path from which so many ardent hearts benefit. Nonetheless, other great spiritual movements that have left a mark on this world for many centuries also benefit from writings of the same kind. Many secrets are still to be revealed – no matter, what is essential is to move forward on this long path of knowledge. Many of our abhyasis wish to progress and conquer within themselves this sacred space that is so mysterious, where the best that can be is accomplished for each one's elevation.

Time is precious; best not to waste it in fruitless undertakings or in a state of detachment that is inappropriate in this quest of the Divine. It is accessible to all, yet one has to want it and perceive it in its reality – an element that is essential to the advancement of the human being.

The stakes are worth the effort, you can be sure. Everything is done in our path to make the best of this approach accessible to all. It bears immeasurable fruit. A day will come when all of you will be able to assess the benefits of your commitment and your action within the Sahaj Marg Mission. It will leave its mark on this time, in more ways than one. Many abhyasis who are truly engaged are sacred vectors of this path, they

*receive accordingly, and they will carry it up to the highest level – this, by divine grace. So it is.*
