Whispers from The Brighter World

Tuesday, April 26, 2016 — 10:00 a.m.

This long journey comprised of messages has left its mark in your heart in the most beautiful manner; your heart loves in a state of serenity, quite simply. These uncommon contacts are of great importance to it, and also to us. Our dear scribe has produced a considerable work that is historically unique; our great Parthasarathi repeatedly emphasised this during his time. Our Mission benefits from this contribution. Books are one thing, but these writings are different in many respects. They will have a prominent place in the future. They carry a special energy whose effects we can measure over time. Nothing is too good or too great for this Mission that holds us so close to its heart. It started in a small way and has expanded. It will increasingly stand out in terms of its importance and the benefits generated.

So much ugliness and violence are developing here and there, and for no good reason. Meanwhile a space of beauty and wholeness could fulfil so many beautiful souls — souls which do not know their own selves. Will this time ever come? We hope so, and we are eagerly working towards it. Each of our abhyasis, through his or her practice and sincere commitment, is involved in this planned evolution that is so critical for the transformation of humanity. To dream of a better world is not utopian. Precedents have occurred across all of creation. The multiplicity of worlds is strikingly immense, diverse and full of planets where perfection prevails, you can be sure. All levels exist, and this probably creates a kind of balance in the whole universe. We have our place in it by divine grace. It is up to you to enjoy this opportunity: Sahaj Marg — a real boon for all of you.
