Whispers from The Brighter World

Thursday, April 28, 2016 – 9:30 a.m.

These anniversary days are important in our Mission. They bring together a large number of abhyasis, and they particularly focus our attention for the purpose of an uncommon work, contributing to the upliftment of all our brothers and sisters. We are attentive to their personal journey; no one is forgotten or neglected with respect to this very special transmission, which characterises the Sahaj Marg way. Its effects are so potent. The brothers and sisters who join us can judge for themselves, and they are often amazed by the results of their commitment in this way of the heart, with its multiple possibilities. Offered for the present times, it is preparing a future that will spread its wings more and more – wings of victorious love coming to cleanse a humanity in distress in more ways than one.

We are working towards the best, without being able to solve everything – that would be too wonderful. But what is being done lays the foundation of an edifice that will grow in the future, providing humanity with real resources, beyond the violence and hatred that plague the world of today – a world without real prospects for change on the human level. Does the human being really wish for such change? We want to believe so and are doing our best to prepare it in our own manner. Spirituality is decisive in this matter. Our wish, that of every one of us, is to contribute substantially – all of us here, as well as our abhyasis – to the transformation of humanity. Why would it not happen? It is up to each person to assess this and commit themselves accordingly.

Blessings to all.

Babuji
