Whispers from The Brighter World

Friday, April 29, 2016 — 10:00 a.m.

On these particular days, the Mission is bathed in a special energy. It touches fervent hearts even more and encourages them to be increasingly committed, for their own good and that of the whole Mission. A very special egregore henceforth characterises the Sahaj Marg way, and its power grows stronger owing to perfect cohesion. Such are the divine plans and the dearest wish of the Hierarchy that is so attentive to all of our abhyasis.

Not everything on the material plane can be resolved; the laws of this world do not permit it. Nevertheless, the Mission benefits from a special vibration that has so far contributed to its development in the world, for the good of our committed aspirants who are convinced of its beneficial effects. Everything is done in the depths and silence of the heart. Once it is calm, the heart benefits from this special meditation that develops facets in it that go beyond the material plane, promoting highly significant spiritual progress. Many Great Beings are invested in it, with the living Master as the powerful beacon whose scope is ever widening and ever more active in today's world — a world that is truly troubled, given an unprecedented negativity whose purpose, it is said, is to help humanity progress!

May this birth anniversary lead the entire Mission beyond the difficulties of this material world to a place of peace and love, under the action of our dearest Kamlesh — the living Master — and our action; we are so attentive to his dear person and to all our abhyasis.

Very special blessings.
