Whispers from The Brighter World

Sunday, May 1, 2016 — 10:00 a.m.

My dear daughter, your heart was overjoyed with the contact you had with your dear Kamlesh and with seeing all those abhyasis expressing their gratitude to you. You miss India. One day, as per your wishes, you will return there — in a future incarnation when you will once again distinguish yourself by serving this country. It was a beautiful seminar, and our very dear abhyasis reap indescribable benefits from it, whether they realise it or not; they are supported by our blessings in a special way. We are very pleased with these results which further enrich this extraordinary way, whose assets will be fully revealed in the future.

One day, India will recapture the greatness it had in a distant past; this country is the heart of a spirituality that originated on this land, blessed by the gods. Our abhyasis can rejoice, being carried on an exquisite path full of promise. Current life in this world casts a shadow over all the beauty of this path and its true action on people's hearts. It does not matter; the work is being done, and our ceaseless love helps each of our brothers and sisters who are in need of it. These large seminars highlight the birth anniversaries of each of the Masters and are rare blessings for the whole Mission. The Mission is expanding and growing in people's hearts; it will take on a greater and greater place within them. This is how it is, shall we say — divine laws cannot be circumvented.

Very special blessings to our dearest and great son Kamlesh, who masterfully orchestrated this anniversary event, and to our very dear abhyasis in India and worldwide.
