Whispers from The Brighter World

Monday, May 2, 2016 — 10:00 a.m.

The effects of the seminar are still being felt today with a subtler vibration. Special blessings are bestowed upon the entire Mission during these very special days when many of our brothers and sisters revel in love. May they all grow further and take a step closer to this very high level where we wish to lead them one day. Far from the perpetual agitation of this world where no one is spared ordeals, there is an Eden, soothing as well as exquisite in its effects, through which the soul delights and truly advances. All of us here are seeing to it and are highly attentive to this Mission and the growing number of abhyasis. They are united in a chain that is extraordinary since it is, at the same time, very subtle in its effects and very potent in the strength of its action, where this very refined vibration produces real results. These days of large gatherings allow one to take stock, to share that which emanates from this egregore, striking in its strength and beauty.

This Sahaj Marg way is so very blessed; time will confirm these remarks. Many events will occur, giving it a very special aura that will allow it to assist more and more souls in search of their spiritual ideal, one that can quench their inner thirst for the Divine. All are supported with much love and attention — you can all be sure of that; at this level, nothing can slow us down.

Very special blessings to all.
