Whispers from The Brighter World

Friday, May 6, 2016 — 10:00 a.m.

The acceptance of suffering as a grace is not easily understood; certain beings carry this heavy burden more than others — such are the laws of karma. Suffering does not indicate that the karma is bad, only that it is necessary in a current incarnation for reasons of its own. It is not easy for humans to admit this necessity. This is all very complex and beyond the comprehension of people in general. It is wise to be accepting. What else can one do? Mystics integrate these notions more easily. Their approach to this mysterious karma opens horizons for them, helping them to better understand.

Following a spiritual path saves valuable time. Divine plans are quite complex and keep their mysteries very well. One who has made some progress has a better grasp on all these notions. Having reached a certain stage, a person no longer seeks to understand — he or she loves and receives in return; thus is created the osmosis and the profound delight of the true mystic who has achieved this stage of surrender to divine love. All can approach it; it is enough to truly want it and to make sure that it flourishes in one's heart.

Sahaj Marg brings together hearts that are in need. This is not a religion, but a mystical movement, which when well understood is capable of producing the best. Many souls are joining us and we are happy for this. The time of bliss will come for all, and then a song of joy will rise up towards us and our blessings will only be stronger for it.
