Whispers from The Brighter World

Tuesday, May 10, 2016 — 10:00 a.m.

We are attentive to your dear person, as we are to all our brothers and sisters who are on the path in our wake. Our great son Kamlesh is supported by all of us here, and he is particularly blessed. He is progressing and rising vibrationally in a manner that makes us happy. His action is taking on its desired scope, which promotes the establishment of Sahaj Marg in the world. Many people aspire to spiritual guidance that is devoid of excessively constraining rituals and easy to access. In our system, the practice is simple, and it is easily included in the lives of our abhyasis.

The commitment of the heart is crucial. One might say that everything takes place here, in this high place of the body and of the "Spirit", the playground of the Divine. What can be achieved there cannot be defined by human beings. The heart holds secrets, those that constitute the karma of the being and that are revealed over time. The karma of each person has its own mystery; no one can know what it holds, and yet everything is meticulously planned from the beginning to the end of this Earthly existence. "A human being plans his life ..." — you know the rest, which we have so often mentioned. Faith and spiritual commitment are liberating; they develop what is essential in a human being. Progress achieved in this way can only bring us joy. The many years of existence of Sahaj Marg have changed many hearts. This is how it is.

Special blessings to all.
