Whispers from The Brighter World

Sunday 15 May 2016 – 10:00 a.m.

A previous message, with 'this unexpected visit', has filled your heart with joy. Our dearest Kamlesh gives a lot of himself; he invests himself totally for this Mission, which is dear to him, and it returns it well to him. He will remain an important and decisive figure for the Mission, in the direction it needs to take today.

Times are changing. It is appropriate to adapt to current needs and to go even further, by anticipating what will become indispensable for the well-being and fulfilment of all our brothers and sisters in this mystical progression.

Everything is intended, counted and planned thus.

Our dear, great son honours this Mission, and we are grateful to him. This role is not always easy to assume, it grows in importance and it will become the supreme reference of this Sahaj Marg Mission. Our permanent action, on the whole of this path of the heart, supports the present and prepares the future. In our own way, we see the future and make sure that certain difficulties are overcome. Many human rules are to be respected, which sometimes complicates things. Nevertheless, the Mission is moving forward, our abhyasis are progressing, and that is the most important thing.

Intangible is this mystical creation, unique in its action. All our brothers and sisters can be happy at this level. Everything is going well for them; in the Kingdom of Spirituality, Sahaj Marg provides for this. So it is.
