Whispers from The Brighter World

Thursday, May 19, 2016 – 9:30 a.m.

A seminar such as the one currently being conducted in Denmark is a real blessing. Many of our brothers and sisters are benefitting from the grace of the moment, the work of their incarnate Master, and a very special transmission. This fact is not to be overlooked; when the opportunity arises, it's good to take advantage of it. All, alas, cannot be physically present, but connecting in thought, with a committed and fervent heart, is a beautiful compensation, one might say. We do hear the call from hearts that are in need; they are heard.

It is not always possible to act according to one's wishes, our scribe knows this only too well.

Grace then responds and compensates in some way for what cannot happen physically. Everyone follows their own path and works as best they can. Following one's path with love and determination generates the desired results.

The action of Sahaj Marg is special. It brings about real results, even if they cannot be easily assessed, for each one. Here, we have that possibility and can rejoice for such an active endeavour. We support our dear Kamlesh as best we can in his action, which is productive and so very effective. Let him rest assured, supported by all of us; he is in close contact with the summit of heaven.

Highly blessed he is, by a Hierarchy who are fully satisfied with his action. To him, our dear, great son, and to all this Mission, our most heartfelt and ardent wishes for complete success. Special blessings.
