Whispers from The Brighter World

Friday, May 20, 2016 — 10:00 a.m.

Life renews itself endlessly. As for these messages, they are the expression of an undying love. They will leave a definitive mark on this Mission; they emanate from our united hearts to reinforce our dearest Kamlesh in his very difficult task. They are specific in more than one respect. The future will reveal the reasons for these messages through the subtlety of their vibration whose principle is unique. Many aspects of life will become more evident, and the human being will manage to grasp that which cannot be grasped in current times. The future is being prepared; all of our abhyasis contribute to the development of a better world through their practice and the commitment of their hearts. That world is being built very slowly, without anyone being able to avert the violence that corresponds to present times — a violence through which the miasmas of past centuries are being cleared away.

Life is never as simple as it appears; creation as a whole is of a complexity that is humanly unimaginable. Let us work at our level while our abhyasis work as best they can within their sphere of action, and all will be well. Each of the major seminars held by the living Master is very important. These seminars represent the power of this path of the heart — a path that is very simple in appearance, but one that increasingly produces very satisfactory results; of this you can be sure. Thus are the divine plans fulfilled. Their action on beings who are thirsting for the Divine cannot be circumvented.

May all be filled at the source, carried by our love and our ceaseless action upon the Sahaj Marg Mission.
