Whispers from The Brighter World

Saturday, June 4, 2016 – 10:00 a.m.

Why not appreciate these notebooks in which your heart sings Love; one can never do that too much.

So many complaints and even cries of despair ascend to us that we can only savour these rather special 'songs'.

We fully receive messages of love; they enchant us, one might say. Beauty stands out from the ugliness that is so heartbreaking in this world. Humanity should move towards what is good, but this process is so slow. We can only dream of those blessed times when everything will evolve in the right direction, leaving aside the miasmas that slow it down considerably. A spiritual path is a precious asset; it distils good vibrations through its ceaseless action in various countries of the world. It creates luminous axes that are beacons for many men and women who are calling for a real transmission emanating from the heart of the Masters, and who are nourished by its benefits. The path of Sahaj Marg offers this important feature, the ceaseless diffusion of a specific energy.

Sahaj Marg will surprise people in the future, when the perception of these subtle phenomena will be more apparent. We are working on this. The alliance of united Masters, as well as the beautiful and great souls who have come to join us, are working to advance this phenomenon, which is so decisive for the future of humanity. Emitting

thoughts of love must become natural; this practice is good for the individual and for the whole community.

This is how it is.
