Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Monday, June 13, 2016 – 10:00 a.m.

You see the importance of these messages, their impact on hearts; rereading this beautiful testimony sent by a sister abhyasi from California touches you infinitely.

Many of our brothers and sisters in the world find themselves in the same situation; initially uncertain about these writings, they are now convinced of their inestimable benefits at the human level. They are not given in vain, we have said it often enough, and the future will highlight even more their action and their priceless benefits; they constitute a true treasure for our Mission. You cannot answer all these letters, but they support you over the course of days in this very special action to which you devote your strength and all the love that constantly carries you.

You live withdrawn from the world, which is not a choice but a necessity due to your physical condition of chronic sufferings, so well hidden from human eyes. As for ourselves, nothing can escape us. Do not feel embarrassed by these words, our support is important for you; this bond of the heart, is it not your 'raison d'être', and even more! In addition, you express so well this very special love that binds us.

All the Masters of the Hierarchy follow this Mission attentively, so special is it in its action – the individuals who represent it will leave a strong imprint upon it.

The current Master will give it a dimension never before attained. He is facilitating its expansion in the world; modern means of communication are very

significant in this matter, and they help him generate the best that can be. We appreciate his action, and he fully meets our expectations. He is our very dear, great and blessed son. He will continue to surprise. To him, especially here, our constant blessings; he has all our love.

Babuji
